Rafael E. Urbina N.

FULL STACK WEB DEVELOPER & ELECTRONICS ENGINEER

rafaelurbinan@hotmail.com   Maturín, 6201, Venezuela   +58-414-3826310

Profile

Electronics Engineer with over 15 years of experience working with Software Development (C#, Visual Basic and Mysql) and 3+ years of experience with Node.js back-end stacks and front-end React.js applications, mastering the following technologies:

BackEnd: Node.js, Express.js (and libraries), Apollo Server (GraphQL), MongoDB, Mongoose, Passport.js, and more…

FrontEnd: HTML, CSS3, Sass, Javascript, React.js, Gatsby.js, Redux, Redux-Actions, Redux-Thunk, Formik, React-Router, React-Bootstrap, Styled-Components, React-FontAwesome, React-Transition-Group, Apollo Client, Fetch API, Axios and more…

These are the tools I use as the base of all my projects: Babel, Webpack, Visual Studio Code, Git, GitHub, Eslint.

Some of my projects can be found online:

https://rafaelurbinadevpro.com : My Professional Website/Portfolio & Blog.

https://infinite-ravine-44036.herokuapp.com : A website & delivery SPA for a Hamburger Restaurant. Users can enter and check the menu, register in the website and make orders.

https://github.com/Rudolf060976/React-Online-Store : An ecommerce website like Amazon.

 Passionate for web development, I would be more than happy to be part of your organization, and I can work with almost all budgets.

Education

Electronics Engineer, INSTITUTO UNIVERSITARIO POLITECNICO DE LAS FUERZAS ARMADAS NACIONALES, Maracay – Aragua State, Venezuela. July 1993— July 1998.

Languages

Spanish: Native Speaker.
